

13 November 1958

MEMORANDUM FOR THE RECORD

SUBJECT: General Governmental Matters Act of 1959,
Public Law 85-468
Title II, Section 202

1. In a discussion with [redacted] s assistant 25X1A9A
in the Contract Office, Office of Personnel, it was determined that
there were no technical problems in writing a contract to cover the ILLEGIB
State Department problem generated by Public Law 85-468. These
contracts would have to be the type received by independent con-
tractors without accrual of benefits.

2. I asked Mr. Ferchak of the Foreign Service Institute to
send me a copy of the contract now used. This he has agreed to
do. The contract that the State Department uses is a non-personal
service type contract with no employer-employee relationship; that
is, no leave, no social security, no fringe benefits. [The contract
is strictly one for service and is based on hourly payment for
SERVICE. Any other type of contract would be charged to office
ceiling and would not be desirable.]
